Finding The Correct Size for your Tuxedo Vest

The best way to determine the correct size for a Tuxedo Vest is to measure your Chest. With your arms down at your side, use a tape measure and place it level under your arms, completely around your body and breathe normally, do not hold your breath!

Be sure to measure the widest part of your chest.
Tuxedo Vest sizes, as well as Suit and Jacket sizes equal your chest size.
If you measure in cm, divide by 2.54 to find the correct size.
